This matter comes before the Public Service Commission of South Carolina ("Commission") on the matter of local calling by the residents of Campobello and Landrum to Spartanburg.

During the hearing concerning the extension of local telephone service between Campobello, Inman, and Landrum, it was brought to this Commission's attention that Inman has an agreement with AT&T for local telephone calling within AT&T's Spartanburg exchange. Residents of Campobello and Landrum expressed interest in having such an agreement for local calling to Spartanburg. In a letter dated May 12, 2008, Representative Bob Walker requested that this Commission consider extending the local calling area of Campobello to include Spartanburg.

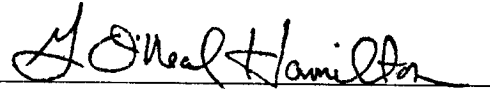

Accordingly, by means of this Order, this Commission requests that the Office of Regulatory Staff investigate the feasibility of extending the local calling area of Campobello and Landrum to include the Spartanburg exchange, and report its findings to this Commission no later than sixty (60) days from the date of this Order.
